HETTICH SLIDELINE 16

The versatile applicable sliding door system for furniture and interior design

SlideLine 16 is a two track, inset sliding door system that provides maximum design flexibility as it can be used for cabinets as well as for room dividers or room doors.

SlideLine 16 provides a smooth and quiet running action even to large surface doors.

The running and guiding profile of SlideLine 16 can be fitted exactly to the given structural situation with just a few cuts of the saw.

No risk of making a wrong order.

Easy installation:
No milling of doors necessary – the single fitting components just will be screwed on.

An allrounder:
For recesses, walk-in wardrobes, room dividers or cabinets: SlideLine 16 is versatile applicable.

Comfort inclusive:
The optional Silent System lets door opening and closing become a gentle and quiet experience.
