

# Lockwood Selector® Series Mortice Locks & Kits

ASSA ABLOY

## Lockwood Selector® 3700 Series Mortice Locks

The Australian designed and built Lockwood Selector® Series Cylinder Mortice Locks are made from quality materials to meet high durability and strength requirements.

This comprehensive range of cylinder mortice locks are suitable for heavy duty use in industrial and commercial buildings, institutions, clubs, schools, hospitals, hotels and similar buildings. The Selector® Series Mortice lock was designed to incorporate the full range of lock functions into one primary lock.

It's a quick and easy install with in-door configuration!

### Benefits

- Short backset mortice lock kits available in 23mm and 30mm.
- Easy red/green function setting.
- All lock settings are made from under the faceplate allowing for simple in-door configuration.
- Standard primary locks include anti-lockout and holdback capabilities.
- Improved cylinder functions including lock/unlock and retract latch as standard.
- Reduced range of cylinder cams and turn adaptors relative to other commonly available commercial cylinder mortice locks.
