

FLYPRO® ALUMINIUM & UNISCREEN-SS

Introducing the *new and improved* FLYPRO® ALUMINIUM and UNISCREEN-SS flyscreens, now even better with a stronger screen fabric and a durable powder coat finish.

ALUMINIUM **NEW AND IMPROVED**

FLYPRO® **ALUMINIUM** flyscreen has been optimised to achieve a balance between ease of installation and surface flatness.

A highly consistent, deep-black powder coating creates a crisp and open appearance, as well as greater weather resistance.

FEATURES:

- Can be installed with less force
- Uniformly straight weave, compared with similar mesh fabric, makes the screen very easy and quick to install
- Improved elongation compared to similar aluminium products for better break-resistance

APPLICATIONS:

Residential windows and doors.

SPECIFICATIONS:

Material	Weave	Strand	Open Area	GSM

UNISCREEN-SS **NEW AND IMPROVED**

FLYPRO® **UNISCREEN-SS** has been developed as a universal flyscreen solution meeting all requirements: ease of installation, durability, invisibility, strength and corrosion resistance.

The ultra-thin strand delivers a clearer and more open visual experience, with an invisible effect.

FEATURES:

- Easy to install: No pre-creasing or tearing
- Ultra high tensile strength is more resistant to dents than standard stainless steel or aluminium products
- Holds firm tension in the frame
- Premium coating with deep blackness

APPLICATIONS:

Bushfire prone areas. Not recommended for C4 or C5 Corrosive Zones*.
