

Hettich Veosys Stainless Steel Hinges

The Hettich Veosys stainless steel hinge is designed to withstand varying conditions, making it an ideal choice for both indoor and outdoor applications. Its robust construction and integrated Silent System ensure reliable performance in any environment.

Corrosion Resistance

The Veosys hinge is highly resistant to corrosion, making it suitable for use in damp, cold, and hot conditions. Ideal for outdoor kitchens, spa centers, gyms, laboratories, and hospitals.

Easy Installation

No adjustment is necessary to enable for efficient installation. Suitable for doors of various sizes, ensuring gentle and reliable closing every time.

Wide Self-Closing Angle

The Veosys hinge features a unique 35° self-closing angle, allowing doors to close almost by themselves and enhance the user experience by providing a smooth and effortless closing mechanism.

High-Quality Construction

Made from stainless steel, the hinge is built to last and withstand harsh conditions for longstanding durability and reliability.
