

NEW FROM SELLEYS

675 Crystal Fix

Based on advanced hybrid technology, this multipurpose crystal clear elastic adhesive sealant is designed for where an invisible bond or seal is necessary. High tensile strength offering very broad primerless adhesion on most building materials*, wet and dry, with excellent resistance to ageing and weathering** making it suitable for internal and external use. It is highly elastic with a joint movement capability of $\pm 20\%$, and safer for the applicator as it does not contain solvents and isocyanates.

**100%
CLEAR
FINISH**

Features & Benefits

- 100% clear finish
- 240 t/m² end strength
- Seals & bonds to any building material, wet or dry
- Excellent resistance to ageing and weathering**
- High resistance to impacts and mechanical stress
- Low VOC
- Water Potable

Suitable For

In house interior fitting, construction finishing, furniture and industrial assembly where a crystal bond or seal is necessary. Suitable for transparent bridge and balcony parapets, weatherproofing of joints in transparent roof coverings and between window or door frames, mirror and glass assembly.

670 Fast Grab

Based on advanced hybrid technology this high strength elastic adhesive sealant with fast strength build up is designed for bonding and sealing applications where immediate grab is required.

Features & Benefits

- Instant grab up to 150kg/m²
- 280t/m² end strength
- Seals & bonds to any building material, wet or dry
- Excellent resistance to ageing and weathering**
- Highly flexible over a wide range of temperatures
- Adjustable for 10 minutes
- Low VOC

Suitable For

Bonding and sealing in industrial and construction where a tough flexible rubber joint or a powerful elastic adhesive is required. Suitable for temperatures from -40 °C to +90 °C, up to +180 °C for 20 minutes for industrial coating.
