

AVENTOS HKi and AVENTOS top family

Introducing an inspiring range of lift systems by Blum.

AVENTOS lift systems allow you to masterfully stage individual furniture pieces and entire living spaces in equal measure. Be it fold up, swing up and over, lift up or pivot up – enhanced ease of use of the wall cabinet is guaranteed. With AVENTOS, you create a harmonious aesthetic and bring top quality motion to wall cabinets.

What makes AVENTOS especially practical is that it gives users easy access to contents and full freedom of movement. Even large and heavy fronts open with ultimate ease.

AVENTOS top family

The AVENTOS top lift systems are elegantly designed to be suitable for the kitchen and other living areas throughout the home. With a uniform cover cap design across the range of lift systems, AVENTOS top can be harmoniously combined in a single piece of furniture or within a living space. *Masterfully staged.*

The top family range includes:
AVENTOS HF top, AVENTOS HS top,
AVENTOS HL top, AVENTOS HK top

AVENTOS HKi

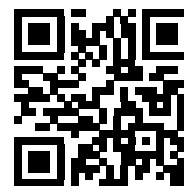

What if the beauty of a stay lift came from the outside and the force from within? Thanks to its narrow and compact design, AVENTOS HKi can be fully integrated into the cabinet side.

The integrated stay lift fitting blends seamlessly into the furniture and opens up new design possibilities with high aesthetic quality. You get pure and unadulterated furniture with complete design freedom.

“To put it simply – AVENTOS works. It's why we've continued to rely on it over and over. AVENTOS is our “go to” when we're working with wall cabinets, whether in a kitchen, laundry or wardrobe.”

- Dave Jamieson, Kitchens By Design
