

# MAKE IT SMART WITH YALE UNITY SLIM COMING SOON FROM LINCOLN SENTRY

The Yale Unity® Slim Smart Lock is a keyless, secure, and user-friendly smart lock designed for aluminium framed doors. It features a narrow escutcheon design and multiple backsets mortice lock, making it ideal for use on most hinged doors, including aluminium front doors. The Unity Slim Smart Lock can be paired with the Unity Screen Door Lock using DualDoor™ Technology, offering an integrated door and screen door smart locking solution.

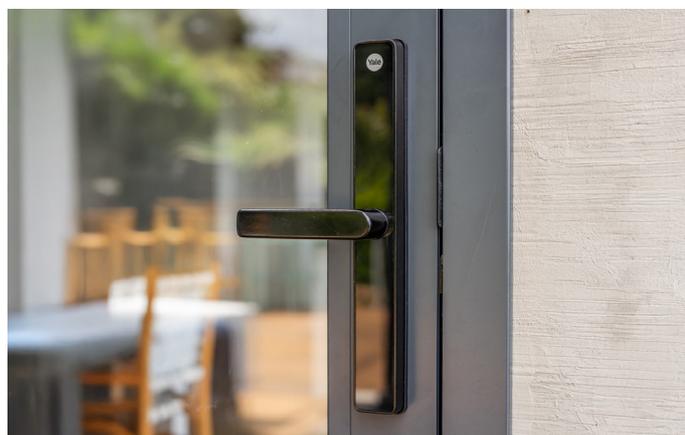

Some standout features of the Unity Slim Smart Lock include:

- Keypad entry and control through the Yale Home App on your smartphone
- Weather and UV resistance, designed to withstand harsh weather conditions
- Induro® 4-Point lift-to-lock system, providing enhanced security and improved door seal performance
- Auto-unlock feature, which unlocks the door as you approach with your smartphone
- Can be retrofitted to most aluminum hinged doors fitted with Euro style mortice locks
- Emergency power supply via a USB-C connection

Additionally, the Yale Connect Plus Hub 2 can be used to control the Unity Slim Smart Lock remotely, allowing you to lock and unlock your door, change PIN codes, and monitor visitor access from anywhere.
